

Building performance, post-occupancy evaluation (PoE) and resilience: a bibliography

Visit www.rbri.co.uk and www.BRIcommunity.net

NB: The titles below have hyperlinks

- Introducing the qualitative performance gap: stories about a sustainable building**
S Coleman & JB Robinson
- Assessing the environmental performance of buildings: trends, lessons, tension**
T Lützkendorf
- Indoor environmental quality and occupant satisfaction in green-certified buildings**
S Altomonte, S Schiavon, MG Kent & G Brager [Free to view](#)
- Understanding occupancy and user behaviour through Wi-Fi-based indoor positioning**
Y Wang & L Shao
- Socio-technical case study method in building performance evaluation**
R Lowe, LF Chiu & T Oreszczyn [Free to view](#)
- Effect of green building certification on organizational productivity metrics**
G Newsham, JA Veitch, YV Hu [Free to view](#)
- Participatory system dynamics modelling for housing, energy and wellbeing interactions**
S Eker, N Zimmerman, S Carnohan & M Davies [Free to view](#)
- Exploring innovative community and household energy feedback approaches**
R Gupta, L Barnfield & M Gregg [Free to view](#)
- Housing performance evaluation: challenges for international knowledge exchanges**
F Stevenson & M Baborska-Narozny
- Evaluating positivist theories of occupant satisfaction: a statistical analysis**
AT Parkinson, R Reid, H McKerrow & D Wright
- Post-occupancy evaluation in architecture: experiences and perspectives from UK practice**
R Hay, F Samuel, KJ Watson & S Bradbury [Free to view](#)
- Impacts of energy efficiency investments on internal conditions in low-income households**
W Poortinga, S Jiang, C Grey & C Tweed [Free to view](#)
- The influence of personality on user satisfaction: multi-tenant offices**
L Hartog, M Weijs-Perrée & R Appel-Meulenbroek [Free to view](#)
- Embedding built environments in social-ecological systems: resilience-based design principles**
J M Anderies
- Comfort-related feedback information: occupants' choice of cooling strategy and perceived comfort**
A Meinke, M Hawighorst, A Wagner, J Trojan & M Schweiker
- Post-occupancy evaluation and Probe: a New Zealand perspective** *G Baird*
- Assessing building performance in use 2: technical performance of the Probe buildings**
B Bordass, R Cohen, M Standeven & A Leaman
- Making feedback and post-occupancy evaluation routine 1: A portfolio of feedback techniques**
B Bordass & A Leaman [Free to view](#)
- Making feedback and post-occupancy evaluation routine 3: Case studies of the use of techniques in the feedback portfolio**
B Bordass & A Leaman [Free to view](#)
- Design for manageability**
B Bordass & A Leaman
- Assessing building performance in use 5: conclusions and implications**
Bill Bordass, Adrian Leaman & Paul Ruysssevelt [Free to view](#)
- Built-in resilience through disaster risk reduction: operational issues**
L Boshier
- Co-producing neighbourhood resilience** [editorial]
F Stevenson & D Petrescu [Free to view](#)
- Re-embedding economies in ecologies: resilience building in more than human communities**
JK Gibson-Graham, A Hill & L Law
- Co-producing commons-based resilience: lessons from R-Urban**
D Petrescu, C Petcou & C Baibarac [Free to view](#)
- Neighbourhood resilience in mass housing: co-production via research-by-design**
J Stollman
- Heatwave planning: community involvement in co-producing resilience**
B Fagan-Watson & K Burchell
- Community resilience: sustained cooperation and space usage in collective housing**
M Montelongo Arana & RPM Wittek [Free to view](#)
- Micro-resilience and justice: co-producing narratives of change**
B De Carli
- Resilience, redundancy and low-carbon living: co-producing individual and community learning**
F Stevenson, M Baborska-Narozny & P Chatterton
- Understanding the role of inhabitants in innovative mechanical ventilation strategies**
C Brown & M Gorgolewski
- Influence of occupants' knowledge on comfort expectations and behaviour**
Z Brown & R J Cole
- BOSSA: a multidimensional post-occupancy evaluation tool**
C Candido, J Kim, R de Dear & L Thomas
- Architects need environmental feedback**
I Carmona Andreu & T Oreszczyn
- A socio-technical approach to post-occupancy evaluation: interactive adaptability in domestic retrofit**
L F Chiu, R Lowe, R Raslan, H Altamirano-Medina & J Wingfield [Free to view](#)
- Mandating transparency about building energy performance in use**
R Cohen & B Bordass
- Assessing building performance in use 1: the Probe process**
R Cohen, M Standeven, B Bordass & A Leaman
- Promoting behaviour change through personalized energy feedback in offices**
M J Coleman, K N Irvine, M Lemon & L Shao
- Post-occupancy evaluation - where are you?**
I Cooper
- Home energy monitors: impact over the medium-term**
S S van Dam, C A Bakker & J D M van Hal
- Energy feedback in buildings: improving the infrastructure for demand reduction**
S Darby
- Smart metering: what potential for householder engagement?**
S Darby
- The building performance sketch**
M Donn, S Selkowitz & B Bordass
- Towards a regenerative paradigm for the built environment**
C du Plessis
- Performance benchmarks for non-domestic buildings: towards user perception benchmarks**
C Dykes & G Baird
- How do post-occupancy evaluation and the facilities manager meet?**
J Eley

- Sustainable development and post-occupancy evaluation**
D Fisk
- Learning from failure: understanding the anticipated–achieved building energy performance gap**
L E Fedoruk, R J Cole, J B Robinson & A Cayuela
- Investigating the performance of everyday domestic practices using building monitoring**
C Foulds, J Powell & G Seyfang
- Resilience to increasing temperatures: residential building stock adaptation through codes and standards**
M Gangolells & M Casals
- Measuring capability for sustainability: the Built Environment Sustainability Tool (BEST)**
J Gibberd
- Low-energy dwellings: the contribution of behaviours to actual performance**
Z M Gill, M J Tierney, I M Pegg & N Allan
- Linking occupant complaints to building performance**
J Goins & M Moezzi
- Housing renovation and energy systems: the need for social learning**
W Glad
- Impacts of community-led energy retrofitting of owner-occupied dwellings**
R Gupta, L Barnfield & T Hipwood
- Understanding occupants: feedback techniques for large-scale low-carbon domestic refurbishments**
R Gupta & S Chandiwala
- Intent and outcomes from the Retrofit for the Future programme: key lessons**
R Gupta, M Gregg, S Passmore & G Stevens
- The ideal of resilient systems and questions of continuity**
U Hassler & N Kohler
- Resilience in the built environment**
U Hassler & N Kohler **Free to view**
- Post-occupancy assessment: building design, governance and household consumption** D J Hendrickson & H K Wittman
- Resilience engineering and the built environment**
E Hollnagel
- Stimulating regenerative development through community dialogue**
C Hoxie, R Berkebile & J A Todd
- Quantifying occupant comfort: are combined indices of the indoor environment practicable?**
M A Humphreys
- Bridging the domestic building fabric performance gap**
D Johnston, D Farmer, M Brooke-Peat & D Miles-Shenton
- The strategic workplace: development and evaluation**
K Kampschroer & J H Heerwagen **Free to view**
- Are users more tolerant of 'green' buildings?**
A Leaman & B Bordass **Free to view**
- Assessing building performance in use 4: the Probe occupant surveys and their implications**
A Leaman & B Bordass
- Building evaluation: practice and principles**
A Leaman, F Stevenson & B Bordass **Free to view**
- Effects of office environment on employee satisfaction: a new analysis**
S Leder, G R Newsham, J A Veitch, S Mancini & K E Charles
- Defining absolute environmental limits for the built environment**
R Lowe
- Commissioning hybrid advanced naturally ventilated buildings: a US case study**
K J Lomas, M J Cook & C A Short
- Sustainable property investment: valuing sustainable buildings through property performance assessment**
T Lützkendorf & D Lorenz
- Using an integrated performance approach in building assessment tools** T Lützkendorf & D Lorenz
- Ventilation strategies for urban housing: lessons from a PoE study** A Macintosh & K Steemers
- Urban social housing resilience to excess summer heat**
A Mavrogianni, J Taylor, M Davies, C Thoua & J Kolm-Murray
- Hospital learning from extreme weather events: using causal loop diagrams**
A Miri Chand & M Loosemore
- Resilience and competing temporalities in cities**
S Moffatt
- Conceptualizing the built environment as a social–ecological system**
S Moffatt & N Kohler **Free to view**
- Do 'green' buildings have better indoor environments? New evidence**
G R Newsham, B J Birt, C Arsenault, A J L Thompson, J A Veitch, S Mancini, A D Galasiu, B N Gover, I A Macdonald & G J Burns
- Resilient housing: a new resource-oriented approach**
L A Nicol & P Knoepfel
